

Membership Drive

Our Membership drive in April/May/June resulted in a net increase and we want to continue that positive trend with two additional specials. But please read on because YOU can play a big part in our upcoming growth and receive Dues Credit!

The new specials include:

- Special for Previous Members, \$150 Initiation on select Golf Memberships (Family / Individual / Executive Family / Executive Individual). Minimum 12 month membership commitment required (secured by paying 1st, 11th & 12th month's dues at application time). Good now through October 15, 2009.

- New Members: 50% off on select Golf Memberships Initiation (Family / Individual / Executive Family / Executive Individual). Minimum 12 month membership commitment required (secured by paying 1st, 11th & 12th month's dues at application time). *The up-front Initiation Fee plus the 3 months dues can be payable over 3 months, creating an EXCEPTIONAL value with immediate benefit to new members!* That's the best "in the door" offer we have ever created. This special will only last until October 15, 2009.

How can you help?

SPONSOR A NEW MEMBER AND RECEIVE UP TO \$500 CREDIT NOW THRU DECEMBER 2009.

Starting July 1 through the remainder of 2009 - For each new Membership you refer & sponsor, you receive ORCC Dues Credit. The dues credit will be equal to the initiation fee of the new members (excluding Corporate Membership), up to \$500 total.

So what is the catch? Contact the office for a special application in which you will need to sign as Sponsoring Member. Do your part to help us grow even more, and we'll do our part to reward you!

Let us help you even more!

BRING ANY GUEST ON ANY TUESDAY IN JULY AND AUGUST AND WE'LL WAIVE THE GUEST GREEN FEES.

Limit THREE guests per Tuesday and TWO rounds per any guest during July and August. All other fees, including cart fees, apply. That's up to \$100 value *per guest* to help you recruit new members!

Together, we can promote the growth we all want to see in our club!

- Joe Hacker, Membership Director
